BIOGRAPHY

NEWS

Dark Whispers is preparing to release their new EP, *FADES* (2026), recorded at Conatus Studio. A first single, *The Striker*, released on March 13, marks a bold shift toward a sharp and atmospheric modern metal sound. The official release and launch event are scheduled for late 2026. Following a series of notable releases — including the EP *VOID* (2023), accompanied by four music videos — the band has made its mark on stage with energetic performances, notably at Paillote Festival, Summerside Festival, and Undertown.

BIOGRAPHY

Hailing from Lausanne, Dark Whispers operates at the crossroads of alternative rock and modern metal, blending raw intensity, melodic textures, and dark atmospheres.

Founded in 2016, the band quickly found its identity through introspective and powerful compositions. Their debut album *Kill Me* (2018) laid the foundations of their universe, balancing emotional fragility with electric tension.

With *Timeless* (2021), Dark Whispers further refined their songwriting and sense of contrast, driven by standout tracks such as *Holding the Wasted* and *King of My Kingdom*. The music video for *You* (2022) illustrated this artistic evolution, showcasing a bolder and more visual direction.

In 2023, the band reached a new milestone with the EP *VOID*, a dense and cohesive project accompanied by four music videos, further strengthening their sonic and visual identity.

Now made up of Kelly (vocals, guitar), Sébastien (guitar), Camille (backing vocals, keyboards), Nico (bass), and Laura (drums), Dark Whispers stands out through an intense stage presence and a constant drive to explore the contrasts between power and emotion.

DISCOGRAPHY

KILL ME - 2 MUSIC VIDEOS

2018

Recorded in June 2018, their debut album, produced by Valdo Sartori, was released on October 6, 2018, after being mastered by Pixelgroove. Thanks to the crowdfunding platform Wemakeit, Dark Whispers were able to make their dream come true. The album artwork, as well as the illustrations featured in the lyric booklet, were created by Sonia Bouchiba. It was a commendable release for this young rock band from the canton of Vaud.

6 MUSIC VIDEOS - TIMELESS

2021

For their second album, Dark Whispers aimed for a more refined and technical sound. They set out to create a collection of 12 new tracks, making it an ambitious project. To bring it to life, three new members joined the band. The album was produced at Conatus Studio, while the artwork was entrusted to Noémie Déchenaux.

VOID - 4 MUSIC VIDEOS

2024

This 4-track EP was recorded at Conatus Studio and was released on June 15, 2024. For each track on the EP, Dark Whispers unveiled a music video. Presented in the EP's track order, these four videos together tell one complete story. It marked another success for the band, with the videos reaching 12k, 22k, 27k, and 13k views respectively on YouTube. The artwork for this third release was created with Midjourney.

1 MUSIC VIDEOS - FADES

RELEASE IN 2026

With FADES, Dark Whispers confirms a shift toward a sharper and more incisive modern metal sound. Made up of five tracks, the EP blends melodic atmospheres with heavier and more aggressive passages, notably driven by the introduction of screams. FADES tells a single story: that of a downfall followed by reconstruction, where the character emerges transformed, almost erased.

The first single, The Striker, accompanied by its music video, has already surpassed 41k views on YouTube. The artwork for the EP was created by the band's guitarist, Sébastien.
