

DARK WHISPERS

Modern Rock Metal Band

Dark Whispers is preparing to release their new EP, FADES (2026), recorded at Conatus Studio. A first single, The Striker, released on March 13, marks a bold shift toward a sharp and atmospheric modern metal sound. Following a series of notable releases – including the EP VOID (2023), accompanied by four music videos – the band has made its mark on stage with energetic performances, notably at Paillote Festival, Summerside Festival, and Undertown.
